Summary

A dedicated Full Stack Web Developer with a background in education, specializing in creating engaging and user-centric web solutions. Holds a Full Stack Web Development certificate from the University of Miami and brings valuable skills from the field of education to the world of web development. Possesses excellent communication, problem-solving, and adaptability skills honed through teaching experience. Adept at user-centered design, project management, and attention to detail. Excels in crafting innovative web solutions while prioritizing the needs of diverse audiences.

Technical Skills

Software/Platforms: Github, Git, GitBash, VSCode, MySQL, NoSQL, MongoDB, Atlas, Mongoose ODM, Insomnia, Apollo Server, MAMP, Heroku, Slack, Discord, MS Office, Microsoft Teams, and Zoom.

Projects

Budgify:

- Summary: Full-Stack application that is comprehensive, cost-effective application that enables users to monitor and manage their individual financial resources, covering all aspects of their financial life.
- Role: Front-End Handlebars, CSS, Bootstrap and JavaScript, Back-end using CRUD, mySQL, models, and insomnia to test the routes.
- Tools/Languages: Node, Express, RESTful API, Handlebars, Bootstrap, MySQL, Sequelize, JavaScript, jQuery, ORM, MD5, Heroku, Agile Software Development

Text Editor:

- Summary: This is a web-based text editor project designed as a Progressive Web Application (PWA). It employs data persistence methods, such as IndexedDB, to guarantee content reliability, even in offline scenarios. The application is crafted for ease of use, enabling developers to effortlessly create and save notes or code snippets, ensuring seamless access from any location and at any time.
- Role:
- Tools/Languages: Webpack (HTML-Webpack-Plugin, Babel, and CSS Loader), Node.js (v16.19.1), Express.js (v.14.17.1), and JavaScript. Nodemon (v2.0.4) and Concurrently (v5.2.0)

The Recipe Bar:

- A web application to search amazing cocktails with the search engine that will find recipes by name or ingredients. This web application was built using JavaScript, html, CSS, local storage, and fetching an Api.
- Role: HTML and CSS along with Bulma framework.
- Tools/Languages: JavaScript, jQuery, Bulma, Web Api, JSON, Local Storage, Agile Software Development

Education

Full Stack Web Development Bootcamp Certificate

University of Miami   Miami, Florida 2023

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handlebars.js, and React.js. Creating a Full Stack application using MERN.

Florida International University   Miami, Florida 2016

Bachelor's degree in education, providing a solid foundation in teaching methodologies, curriculum development, and classroom management.

Experience

Dade County Public Schools   **May 2016-Present**

Educator

Educator at Miami Dade Public Schools, where I acquired extensive expertise in the following areas:

- **Problem-Solving**: Effectively identified and addressed learning challenges to ensure student success.
- **Communication**: Demonstrated exceptional communication skills by explaining complex concepts in a clear and understandable manner to students.
- **Adaptability**: Successfully adapted teaching methods to accommodate diverse learning styles and evolving educational requirements.
- **Attention to Detail**: Maintained precise records of student progress and assignments to ensure accurate assessment.
- **Project Management**: Managed classroom projects, organized lesson plans, and consistently met deadlines.
- **Analytical Skills**: Utilized data analysis to assess student performance and improve teaching strategies.
- **Learning and Adaptation**: Committed to continuous learning and adaptation based on student feedback and educational advancements.
- **Teamwork**: Collaborated with fellow educators to achieve common educational objectives, emphasizing effective teamwork.
- **Coding Interest**: Pursued coding projects and coding-related hobbies outside of teaching, showcasing a genuine interest in software development.
- **Technical Skills**: Acquired relevant technical skills and certifications in software engineering.
